SATURDAY, JUNE 26, 1880.

THE MEETING.

Yesterday at 2 o'clock, pursuant to notice, a meeting of English-speaking residents was held at the British Legation. We noticed the following gentlemen present:—Mr. Egerton, H.B.M. Charge d'Affaires; Very Rev. Dean Dillon, Rev. Dr. Smith, Father Martin, Rev. James Smith, Rev. Mr. Thompson, T Duggan, M Schoolbred, Sarsfield, Brennan, C Santa Maria, J Mackern, G Cooper, Bankier, Sanford, Carroll, Forrester, Methven, Hutcheson, Neild, R Cooper, Carlisle, Wilson, Peake, Thompson, Drs. Alston and Mulcahy, Coghlan, W Samson, Gen Osborne, U.S. Minister; W Mackern, Wilson, N Bouwer, Russell Tebbit and many others.

It was proposed by Dr. Smith that Mr. Egerton take the chair; seconded by Mr. Mulhall.

Mr. Egerton, on taking the chair, explained his motives for calling the meeting, and in a short and able manner defined the situation. He then read the following:—

Draft of proposed Statutes for the formation of a Relief Fund for distressed persons of British or United States nationality, and their children being English speaking persons, during the present crisis—

1. That a British and American Benevolent Society be, and is hereby formed, for the purpose of relieving any cases of urgent distress that may be brought to the notice of the Committee.

2. That a Committee of Eight British Residents, with power to add to their number, be formed to collect subscriptions and arrange the conditions of the expenditure of funds so collected in relief of distress caused by existing circumstances.

3. That the Rev. James Smith, the Rev. Father Martin and the Rev. W. Thompson be ex-officio members of the committee.

4. That the English and United States qualified medical practitioners, who may be willing to give thir medical services in aid of the Society, be likewise ex-officio members of the Committee.

5. That the Committee so formed shall elect among themselves a Chairman, Treasurer and Secretary, and make such arrangements as they think fit as to time of meeting and, investigation of claims to relief which shall be entirely regardless of sect or creed.

6. That the General Committee invite a Committee of Ladies to assist in the carrying out of the foregoing scheme.

7. That one essential condition entitling persons to relief shall be that they are of British or United States origin, the same to be properly substantiated.

8. That a general statement of the subscriptions received and the disposal of the Funds shall be published in the local English journals.

9. That any disposable surplus of the Fund be distributed according to the majority of votes of those present at a general meeting of subscribers.

Rev. Dr Smith moved the adoption of these resolutions.

Mr Mulhall moved as amendment that the Very Rev. Dean Dillon's name be added to the list.

Rev. Mr. Thompson objected to the amendment at the present stage and seconded Dr Smith's motion.

Mr Carroll moved as amendment that the preamble state that the Relief Committee about to be formed be of a permanent character, and in his usual able manner supported his motion which was duly seconded.

Mr. Forrester spoke to the motion and said that we are all at present distressed British subjects; he spoke of the state of the town, the dangers to the residents, and asked what steps the British and American Ministers had taken to protect us from a bombardment.

Genl. Osborne in an able and eloquent speech replied and stated that he came to the meeting to give charity, to help a charitable movement, and not to answer questions as to the discharge of his duty as Minister.

Mr Carroll's amendment being accepted, it was drafted into the minutes.

The resolutions were then read and adopted.

Mr Neild moved as amendment to Art. 2, that all the clergy of every denomination be ex officio members of the committee which we believe, was passed, and be proposed the following gentlemen for the Committee:—

Mr G Cooper
" Runciman
" N Bonwer
" M Carroll
" R Bridgett
" Bankier
" J Drysdale
" Congreve
" Roberts
" Forrester
" Bowers
" Sanford
" M Duggan.

Mr. Mulhall begged to propose the following resolution before Gen. Osborne, American Minister, left the room:—

Resolved—That the British and American Ministers be, and they are hereby requested, to supply the English and American families anxious to leave this city, with free passages in the gunboats to some safe ports.

Mr. Mackern seconded the motion.

General Osborns rose to explain that although he was willing to do everything possible to reach the object of the resolution, the matter lay more with the Admiral than with him.

Mr. Egerton stated that all parties obtaining passes, Governor Tejedor had informed him, could leave the town; and that with regard to the gunboats, Captain Jones, the new Commander of the Station, would probably be up to-morrow, and he believed the matter could be arranged.

Mr. Lowe spoke to the question and proposed an amendment, which was not seconded.

Rev Mr Thompson thought the resolution should be made the subject of a special meeting.

Father Martin spoke to the question, and considered the Ministers were doing all they could, and gave some information that came under his own observance.

Mr. Forrester considered that there was no reflection whatever on the conduct of the Ministers; the people only wanted to know how to get out of the town and the means.

A long and animated discussion ensued, many gentlemen insisted that there were many families anxious to leave the city.

Mr Sarsfield Brennan stated that there are fifty families anxious to leave.

Genl. Osborne spoke to the question, and said after what he had heard, that he hoped the resolution would be passed.

The Rev. Mr. Thompson withdrew his amendment, and the Chairman then put Mr. Mulhall's resolution which was carried unanimously.

Mr Carroll moved that a subscription list be at once opened, which was duly seconded and carried.

Mr Ronald Bridgett stated that he wished to explain to the meeting the reason of Consul Mallet's absence, that he resides in the suburbs, is not in good health, and his quinta is at the moment surrounded with soldiers, but he wishes to aid the cause, and requested the chairman to put Captain Mallets name down for one thousand Dollars.

Mr Bridgett then opened a subscription list which will be published in our next.

After a vote of thanks to the chair the meeting broke up.

Mr Thomas Wilson after the meeting proceeded to the Government House, and requests us to state, that free passes will be given to all English and American families that wish to leave the town, and parties requires such passes can apply to him. This may be termed effective relief.

THE ÆNEID.

On Thursday the city awoke to the agreeable news of an armistice, which began the previous night at 8 o'clock and was to hold till 6 p.m. on Thursday. The beach was crowded at day-break as usual, and all the merchants' offices were opened before 8 o'clock a.m., in order to despatch a rather early French mail, which closed at the Post Office at half past 10 o'clock a.m. Just about that hour, when people were leaving for breakfast, the booming of heavy cannon near the Retiro was heard, and, as it was notorious that the Nat. Government, at the instance of the Foreign Ministers, had granted an armistice, people set the firing down to a salute to the Brit. gunboat Forward, with Captain Jones on board. They were soon undeceived, as the news spread like wildfire that the balls were falling thick and fast at the Retiro, and that the shore battery at the Gas House had struck the Villarino above the water mark. The excitement in town may be imagined, and people felt indignant and exasperated at the Captain of the Villarino firing on the town in face of an acknowledged armistice. We tried to find out the particulars, but the only thing we could learn was that the Villarino had opened fire on the battery and had stopped firing when a boat went alongside. The balls of the Villarino struck the Retiro station, and we deplore to say, killed two men and wounded many. A shell burst over the house of Dr Medina, alongside the Coliseum, and damaged the mirador, and several houses in Calle Tucuman were hit: the outer coat of the shell was brought to the Bolsa, where, although a holiday, crowds of merchants and others were assembled. Every one expressed the greatest indignation at the Villarino committing such a wanton act, which, to a great extent, neutralized every friendly feeling which the armistice was likely to create. As the day was fine and nothing whatever doing in town, many parties started for a walk to Flores, where, according to the bulletins, the Peace Conference was to be held at the Juzgado at 12 o'clock.

Sr Cortinez, commissioner for Nat Government.

Sr Felix Frias, commissioner for Buenos Ayres.

Most of those who started for Flores only reached as far as the Plaza Once de Setiembre, where the strictest orders were given to allow none to pass; and even if Colonel Lagos did give permit to pass, the state of affairs up there was such as to caution people against attempting to pass. Some few, however, whose curiosity exceeded their prudence, did pass, to be brought up short at Crisis Corner, or, as it was called in days of yore, Boyd's Corner, where the National picquets stopped everyone unless supplied with a pass from the Juez de Paz of Flores. The Flores Road is now held by the National troops. The beautiful Guerrico quinta is made a cuartel for some 200 soldiers; the Lamas quinta is also occupied, and Morgante's house, at the Shebang Corner, above Lambaré, are is occupied by troops. Thus this once peaceful, charming highway is now every inch held by troops. Mr. Reynolds came in on Thursday; he reported things quiet enough; but a ball had entered the wall of the house of Mrs. Rae at Caballito, and two cannons are mounted on the road near to the toll house, close to the Beehive, or, as it was once called, Candlestick Castle. The Rev. Mr. Vaughan arrived from the outside lines about 3 o'clock, and reported a great number of wounded, and hilas &c. much needed. The day passed, every one hoping against hope and watching the publication of a bulletin with news, either of peace concluded or a further extension of the armistice. The foreign Ministers met, and waited until 4 o'clock for the Nuncio, who could not be found in town, and finally broke up without adopting any note on the subject of the violation of the armistice. As for the peace negotiations, they signally failed, Mr. Cortinez having presented as bases certain conditions which Mr. Frias refused even to consider. Mr. Frias asked to extend the armistice. Mr. Cortinez said he would consult the President, but no answer came, and the meeting broke up. Mr. Felix Frias arrived in town at about half-past five o'clock and was seen in Calle Piedad, and thus terminated the Peace conference of Flores.

The *Patria Argentina* gives the following account of the affair on Thursday:—

About 10 a.m. the population were surprised by cannon shots from the Villarino. The violation of the armistice could not be more flagrant. The artillery on the beach answered the Villarino, and one shot fired by Commander Falcon smashed the mitrailleuse on board the Villarino, while another went through a port-hole: Another hit the quarterdeck, and D Jose Palacios, who aimed it, was warmly congratulated by his superior officers.

"Some of the shells so treacherously fired by the Villarino fell in the following places.

Corner of Esmeralda and Tucuman, shell fell on roof of almacen, but did not explode.

Corner of Maipu and Paraguay, and another near Mr Baudrix's house.

Another burst over the Coliseum, but did not do any harm.

Another fell on Dr Mesquita's house; one of his daughters was on the roof, and had a very narrow escape from a fragment of shell that flew over her head.

One of the last shells fired fell in the patio of D Romulus Montes de Oca, near the Retiro, his wife having a narrow escape, and the house being somewhat damaged.

"The shell that fell in Prat's ink factory wounded one man, who was immediately taken in charge by Sr. Igon, of the Masonic Society. Another fragment of shell fell at Dr. Kelly's apothecary shop, corner of Suipacha and Santa Fe. A ball flew over a group of volunteers in Calle Florida, Plaza Retiro.

The following is a list of the people wounded—

Pedro Morales, Argentine, 22 years, unmarried, of Pilar, wounded in a leg and head.

The Minister of War has addressed the following proclamation to the defenders of Buenos Aires:—

National Guards,
Defenders of Buenos Aires,

The resistance of the province has commenced with two bloody encounters in which you covered yourselves with glory, conquering and dying as only free men know how to do.

You have had to do with veterans trained in a hundred fights, and in spite of their discipline, you have not wavered in the hour of trial.

All honour to the Defenders of Buenos Aires. The institutions of the Republic owe you a debt for such abnegation and patriotism.

Fresh combats are before you, and I, who have witnessed your indomitable courage, only ask you to continue to show the same courage you displayed in the recent fights.

The heroic city which, in former days, resisted the attack of powerful nations, will again cover itself with glory if the horde's who want to restore the reign of the 'caudillos' approach your trenches.

Let your motto be: Freedom or Death.

Your General and friend,
Martin de Gainza.

To the Editor of the *Standard*,
Lanus Branch, June 23rd.
Dear Sir,

Allow me, in the name of 'The Red Cross International Association Argentine Branch,' to thank those gentlemen who have so kindly lent their services and sent provisions &c. to the above; also to inform them that the branch is now removed to the San Francisco Convent, so that their services will not be further required at the above branch.

Members will please to report themselves at the central office for further orders.

E. S. Bowring,
Manager,

At 4 o'clock the news was fully confirmed that General Mitre left for Belgrano this morning. It seems Don Eduardo Madero brought the General a letter from the President, which on the moment he read. He jumped into Mr. Madero's coach and drove back to Belgrano. Grant Heaven that this bring us peace.

We are requested to state that the Consulate of the United States is now located at No. 32 Calle Reconquista, front office.

EDITOR'S TABLE.

Thursday was St. John's Day, which is usually a Feast celebrated by social gatherings in other and happier times, at all the houses of the various families in town, where they played 'cedulas,' and on St. John's Eve all the 'quinteros' in the suburbs lighted bon-fires: this year, however, the only gatherings were at the 'cuarteles,' and the bivouac fires of the troops the only ones seen.

The French mails were unusually heavy, and were taken off to the ironclad by the Satelite; and the Niger started, true to time, with a large crowd of passengers.

The markets in the morning are crowded not only with cooks and servants, but with 'patrons' and 'patronas.' Every description of salt meat was offered for sale, and all kinds of sausages. Corned-beef was sold yesterday morning, without bone, at $12 per lb., and, we hear, there is a large supply of this article in the markets.

The news from Entre Rios and Corrientes has been stopped, owing to the break in the tejegraph between this city and Montevideo, but there seems good reason for believing that the revolution in Entre Rios is confirmed, and that things up there are in a very troubled state.

Yesterday most of the families at the Retiro left their houses, owing to the balls from the Villarino having passed down into Calle Maipu; and the German Minister, Baron Holleben with the greatest courtesy and benevolence, turned one of the saloons of his house into an hospital for the wounded men at the Retiro on Thursday morning.

Subsequent to the firing of the Villarino, a meeting of Foreign Ministers was held at the Brazilian Legation in Calle Cangallo—his Excellency Baron Gondin, the Brazilian Minister, presided. What transpired has not been made public, but we believe the Nuncio was sent for, but could not at the moment be found.

On Thursday night Dr. Felix Frias, after his return from Flores, had a long interview with Governor Tejedor. The unceasing efforts of Mr. Frias to bring about peace have made him the most popular man in Buenos Ayres, and when a man of such a position, such influence, and such relationship with both parties cannot effect peace, it is evident that the pretensions of the belligerents must be very great.

Since the closing of the port four large consignments of wheat for this market have arrived, and had to be landed in Montevideo. One a heavy consignment is seed wheat, which will be a double loss to the country if not at once brought up and given to the farmers, as the time is approaching now when the 'chacareros' will require the seed wheat to sow in their land, which is ploughed and ready for it, the season, so far, having proved extremely favourable for 'chacareros.'

We have received by the mail from England a chart or plan, showing the rise and fall in the price of iron for the last 50 years. It is a table of great interest to all engaged in the article, and can be seen at our office.

Owing to the decree of the Government, methodizing the Red Cross organization, many of the foreigners who joined it have resigned. Mr. Bowring, who has lent such very active services and brought many wounded to the Lanus deposits, has ceased to be a member, and, we believe, the committee has applied to the Government for a modification of the decree in question. The wounded in the Lanus deposits have been removed to the Convent of San Francisco, and Mr. Bowring tells us of one or two wonderful cures of poor wounded men, who were so badly hurt that he did not think they would have lived a day, are now almost convalescent.

It may interest many farmers and others to look over a map which we have received from England, showing the different counties that are affected by the sheep-rot, a subject of great importance to this country, and about which we have published some useful chapters. Over 2,000,000 of sheep have perished in England through the disease, which, we regret to say, threatens the English farmers with still greater loss.

It might be well for the Committee of the Exhibition to at once publish a notice giving their views, since many people ask if the committee intends, in spite of the terrible state of the country, to attempt the Exhibition this year. We believe it to be utterly out of the question.

For the information of foreign families resident in town, we publish the following list of streets and squares in which a police night service has been established by the neighbours, a step most necessary in the present emergency:—

"Chacabuco, Piedras, Estados Unidos y Europa; Venezuela, Mejico, Buen Orden y Tacuari; Bolivar, Peru, Mejico y Venezuela; Salta, Belgrano, Santiago del Estero y Venezuela; San Jose, Santiago del Estero, Belgrano y Moreno; Solis, Moreno, Zeballos y Alsina; Victria, Lima, Salta y Alsina; Chacabuco, Alsina, Peru y Victoria; Rivadavia, Reconquista, 25 de Mayo y Piedad; Florida, Rivadavia, Piedad y Maipu; Rio Bamba, Ayacucho, Cangallo y Piedad; Maipu, Florida, Cangallo y

The Lamport & Holt steamer Archimedes to arrive from Rosario will sail on the 1st of July for Rio, Southampton and Antwerp, taking mails and passengers as usual.

H.M.S. Forward is expected to day. She brings up the Minho's mails, but it will be late when they come ashore. Captain Jones, the senior officer on this station, also comes up in her.

We were glad to hear yesterday that the temporary difficulty in reference to the Red Cross Society has been arranged. All persons who now desire to become members must present a certificate of character from two well-known persons. This step has been rendered necessary by its being discovered that parties had assumed the badge of the Society for purposes quite foreign to its humane objects.

There will be Divine Service, with celebration, at St. John's Anglican Church, to-morrow, Sunday, at 11 o'clock: and the Christian Doctrine class to-day at the Merced under Father Martin.

MERCANTILE BANK OF THE RIVER PLATE.

(Continued.)

The Chairman in continuation said—

I will now make some few observations respecting the Pando Railway. It may interest many of you to know a little of the history of this property. If you will give me the time and allow me to speak on this subject, I will do so. It has often been referred to here, but I see so many gentlemen who have only lately registered, and who therefore have not been here before, that it may be interesting to them to have some little sketch of what has taken place on former occasions. Therefore, if you will allow me, I will give you a very short history of this property. I will not go so far back as its origin, but the older shareholders will remember that we allowed the sale of this railway to be made to two gentlemen of reputed means, who undertook to complete the line to Pando on the condition of our raising the original mortgage and accepting debentures to the amount of £40,000, secured by the line as well as by their personal responsibility. We were induced to alter our original position to this form, because we knew that till the line was completed to Pando, it could not pay its expenses, but that once opened to that point, it would become a very important and paying concern. Well unfortunately, one of the gentlemen referred to committed suicide, and by the laws of the country it devolved on his partner alone to carry out the agreement which had been made. This he has been striving to do, and has expended much money on the works, but he has now exhausted his means, and there yet remain some eight or nine miles out of the twenty-three to complete. For the remaining distance the earthworks are prepared, and we expect that others will be found to continue the line, but at this instant I am unable to announce anything positive as to its completion. We are, however, pretty well convinced that eventually the line will be completed, when we shall hope to dispose of our interest at a fair price. Well, gentlemen, I think I may now refer to a subject which, perhaps, is of principal importance to-day: that is, the question of reconstruction. Those gentlemen who are here for the first time, may not know that about two years ago it was contemplated to reconstruct this Bank, and at the last meeting some of the details of the scheme such as had been elaborated by the Committee, were placed before the Shareholders. Before that time it had been arranged that a Committee should be formed to consult with the Board on the advisability of carrying out some scheme of reconstruction, and after much consultation it was decided by the Committee that the chief asset of the Bank, the Montevideo Waterworks, was in so much jeopardy that until the litigation was in a more advanced and favourable condition, it was somewhat imprudent to adopt our suggestion; and although we concurred with the Committee, and indeed advised our Shareholders by circular of our having so done, yet having faith in our ultimately becoming possessed of our rights in respect to the waterworks, we should have been pleased if it had been otherwise decided and we were at that time prepared to help the reconstruction not only by our superintendence and management, but by subscribing liberally to the new capital which would have been required. Well, gentlemen, during these two years which have passed, the position has become altered. We have been so long without doing any active business at our branches, that we have naturally allowed our best friends to pass us, and we now think a reconstruction of the present Bank would not aid us so successfully in collecting our old assets, and in bringing back to us our former supporters, as would the scheme which we now recommend, namely, that of establishing an entirely independent new Bank. Depositors and customers are less likely to rally round a reconstructed Bank, with a 2 years reputation of merely liquidating its affairs, than round a new institution with fresh capital, new names, and with an entirely new organization. The advantages to our shareholders of entrusting the liquidation of their affairs to a new Bank must be apparent to all. The constant expense of three establishments is most onerous, whereas an arrangement could be made with a new establishment to collect our assets in consideration of a commission; and thus we should become relieved from the heavy expenses which are really now weighing us down. If the public, as we rather expect, should see it to their interest to subscribe capital to a new Bank, and we are aided by the shareholders to start with a good amount of ready cash, we believe a very excellent business could be initiated in the River Plate. Very many errors of management which from the first caused the destruction of the present Bank, would be avoided, and the new institution would set to work on those principles discovered to be correct from the bad experience of the past. One of the great evils of this Company was the appointment of a Local Board, and uniting itself with a faction which was at that time a political one. Indeed, the origin and commencement of the decline of power and wealth of some of our largest debtors, as, for example, the owners of the waterworks, is attributable to the fact that the party on whom they depended for their influence ceased suddenly to exercise any power in the government of this country. We are really of opinion that there is a profitable field for banking operations in the River Plate. The Argentine Republic has hardly ever been in a more flourishing condition than at the present time. The high price of wool in the European markets and their increased crops of grain, have brought wealth lately into the country. Their present prosperity is not, as on a former occasion, owing to the influx of gold obtained by foreign loans. That gave an unnatural inflation and a false value to all property. Their present happy state is attributable to political quietude, which has allowed the development of the country. To any late visitors to those parts this is apparent, by seeing the great works they are constructing and the railways which they have, and which, no doubt, have been constructed out of the money they borrowed from us here. Incessant loans, spreading gold broadcast, created of course a fictitious prosperity, which only lasted till crushed by the usual consequence of inflation, very severe commercial panic. Since then, I may say, time and nature have given a new life to these Republics, and they have lately arisen refreshed and enriched by the gold which we have sent them from the Old World. We are therefore endeavouring to arrange for the formation of a new Bank, which will undertake the liquidation of our Bank, and we hope so to arrange that our shareholders shall have the option of taking a new share in the new Bank, for an amount to be agreed upon, in exchange for each of their shares. Some such arrangement must be beneficial to our shareholders. The liquidation of our Bank would be conducted at the smallest possible cost, while a new Bank, well established, would be able to collect our assets with greater power and force than any other liquidator could do; and it would also be to the interest of the new Bank to make the most of our assets, having become the purchasers of the interests of those of our Shareholders who may have chosen to exchange into the new Bank. I have already had interviews with some of our largest and most influential Shareholders, and they seem inclined to lend their assistance to any scheme which bids fair to be carried out. They have indeed promised to place themselves in consultation with the Board, and with their help and your permission we shall endeavour to form the new institution of which I have spoken. It is our intention to place before you such a scheme only as shall have been previously approved by them, and one in which they decide to take some part. No time shall be lost in endeavouring to mature the plans, and at an early date we hope we may have something definite to bring before you. I think, gentlemen, it now only remains for me to put the following resolution—namely, "That the Report of the Directors, and the Accounts thereto annexed, be received and adopted."

Mr. Edward Ashworth.—I beg to second the resolution.

There was a meeting at the Provincial Bank to-day of much importance; first to elect a Vice-President in place of Mr E Madero (we believe Mr P Agote was elected) and secondly to consider the new law which compels the Bank to accept the new Treasury Bonds at par.

In general business circles there was nothing whatever done; at 1 o'clock it was announced that General Mitre with Mr Madero has passed the lines and gone out to make peace at Belgrano; this rumour caused great excitement on 'Change, and everyone hoped that General Mitre would conclude peace.

The Western Railway Board calls upon all parties who have goods or merchandise at the Plaza Once de Setiembre Station to remove same without the least delay.

As the Provincial Treasury Bonds will now be offering in the market, we may note that the following law to aid their circulation has been passed by the Chambers and promulgated by Executive—

Art. 1.—The Treasury Bonds omitted by virtue of the law of 10th of May ultimo shall be received by the Provincial Bank at their par value in payment of debts due to said Bank.

Art. 2.—The Fiscal Provincial Offices shall in like manner receive the said Bonds in payment of Patentes, Excise Duties on alcohols and tobacco, and shall except them to the extent of 50 per cent in payment of Contribucion Directa.

Minister Balbin has fixed the value of paper money for the payment of duties up to the 25th instant at 32 dollars per patacon.

Discount brokers report discounts almost impossible, the only Bank discounting being the Provincial Bank.

As a matter of course the sales of Public Land, advertised by Mr Ignacio Freire at the Provincial Land Office, must be postponed; and in fact all auctions, whether judicial or otherwise, must stand over for the present.

The Minho's mails are expected to-morrow The Bank discounted to-day about 4 millions.

The *Libertad*, we regret to say, reports that Santa Fe troops have entered this province and swept the estancias about Arrecifes.

The National Government has published a decree calling out the 'pasivo,' which means all the elderly gentlemen of the city. Their service, however, will be only Municipal.

The Montevidean telegraph line continues out, and we believe the outside party will not allow it to be repaired.

The meeting at the Bolsa to-day was important, and the following gentlemen named on Committee to protect commercial interests—

President—Mr. Sassenberg, for German Commerce.
Secretary—Mr. Pommez, French do.
Members—Mr. Devoto, Italian do.
Mr. Miro, Brazilian do.
Mr. Drysdale, English do.
Mr. Bowers, American do.
Mr. Civils, Spanish do.

This Committee meets daily.

To-night there is a meeting to be held at the French Minister's.

To day large transactions not reported on the board were effected, and much of the months liquidation concluded.

Our special Boca reporter gives the following:—

Everything quiet with the exception of a few banditti. The night before last two soldiers dressed as privates in National Troops, assaulted the house of an Italian in the Vuelta de Rocha, and wanted to take away a girl, daughter of the owner. On the father interfering, he got for his pains, a slash on the head, but the neighbours being roused, the villains had to make tracks without their prize.

Copy of Analysis by Professor Kyle.
National College, Buenos Ayres, November 29th 1879.
Messrs. M. Forrester & Co., Buenos Ayres.
Gentlemen—I haveat your request made a careful examination of he sample of JEYES'S SHEEP DIP you handed to me on the 18th inst. I find it to be a well made preparation of Phenols and other Tar products, combined with soap, retaining the liquid form and easily mixible with water, from which it does not afterwards separate.
The proportion of active ingredients amounts to rather over 80 per cent. it is free from Mineral Poisons and from Caustic Alkalies. In my opinion it is well worth the attention of Sheepfarmers, and will be found by them to be convenient, safe, and I do not doubt, very efficacious as a Sheep Dip. From the readiness with which the preparation can be mixed with cold water it ought to prove most acceptable as a domestic disinfectant, being more convenient than crude Carbolic Acid or the disinfectant powders so frequently employed.
I am, Gentlemen, your obedient servant,
JOHN J. J. KYLE, Professor of Chemistry.

"The Sheep Dip is the best that I have ever used. I have not seen a single Maggot on any of the Sheep since we used it. The wool looks beautiful, and to all appearance improved in quality. I feel satisfied it will be an invaluable boon to our large Sheepfarmers in the Colonies, and it only wants to be appreciated."

Dr. J. COLLIS BROWNE'S
(Ex Army Medical Staff)

CHLORODYNE

IS THE ORIGINAL AND ONLY GENUINE.

CAUTION.—Vice-Chancellor Sir W. P. Wood stated that Dr. J Collis Browne was undoubtedly the inventor of Chlorodyne; that the story of the defendant, Freeman, being the inventor was deliberately untrue, which he regretted had been sworn to. Eminent hospital physicians of London stated that Dr. J. Collis Browne was the discoverer of Chlorodyne; that they prescribe it largely, and mean no other than Dr. Browne's.—*See Times*, July 12th 1864.

The Public, therefore, are cautioned against using any other than Dr. J. Collis Browne's Chlorodyne.

REMEDIAL USES AND ACTION.

This invaluable remedy produces quiet, refreshing sleep, relieves pain, calms the system, restores the deranged functions, and stimulates healthy action of the secretions of the body, without creating any of those unpleasant results attending the use of opium. Old and young may take it at all hours and times when requisite. Thousands of persons testify to its marvellous good effects and wonderful cures, while medical men extol its virtues most extensively.

CHLORODYNE is admitted by the profession to be the most wonderful and valuable remedy ever discovered.

CHLORODYNE is the best remedy known for coughs, consumption, bronchitis, asthma.

CHLORODYNE effectually checks and arrests those too often fatal diseases—Diptheria, Fever, Croup, Ague.

CHLORODYNE acts like a charm in Diarrhœa, and is the only specific Cholera and Dysentery.

CHLORODYNE effectually cuts short all attacks of Epilepsy, Hysteria, Palpitations and Spasms.

CHLORODYNE is the only palliative in Neuralgia, Rheumatism, Gout, Cancer, Toothache, Meningitis, &c.

Extracts from Medical Opinions.

The Right Hon. Earl Russell communicated to the College of Physicians and J. T. Davenport, that he had received information to the effect that the only remedy of any service in Cholera was Chlorodyne. *See Lancet*, Dec. 31st, 1864.

From A. Montgomery, Esq. late Inspector of Hospitals, Bombay. 'Chlorodyne is a most valuable remedy in Neuralgia, Asthma, and Dysentery. To it I fairly owe my restoration to health, after eighteen months' severe suffering, and when other remedies had failed.

Dr. Lowe, Medical Missionary in India, reports (December 1865) that in nearly every case of Cholera in which Dr. J. Collin Browne's Chlorodyne was administered, the patient recovered.

Extract from the General Board of Health, London, as to its efficacy in Cholera. 'So strongly are we convinced of the immense value of this remedy, that we cannot too forcibly urge the necessity of adopting it in all cases.

See leading article, *Pharmaceutical Journal*, August 1st, 1860, which states that Dr. J. Collis Browne was the inventor of Chlorodyne, that it is always right to use his preparation when Chlorodyne is ordered.

CAUTION. None genuine without the words 'Dr. J. Collis Browne' on the Government Stamp. Overwhelming medical testimony accompanies each bottle.
